

2010 Best App Ever Awards

We're proud to announce the winners of the third annual Best App Ever awards. Started in 2008 as a way to draw attention to the best apps available in the iTunes App Store, this year saw an amazing level of participation from users and developers alike. Over 500,000 votes were cast for the apps in the following categories.

"The goal of the awards is to help publicize some applications that people may never have seen. Some of the best apps have never been featured in an iPhone TV ad, yet they deserve recognition and publicity for the great work the developers have done." said Jeff Scott, founder of 148Apps and the Best App Ever Awards.

Nominations were opened in late November with nearly 9,000 nominations cast for over 2800 different applications. The top nominees in each category for both iPhone and iPad were chosen and put up for a vote starting January 1st.

Best App Ever Statistics
